

Sophia University Project to Support Women Researchers in a Global Society

co-organized by Faculty of Science & Technology and

Department of Materials & Life Sciences

~Colloquium to Promote Better Careers for Female Graduates (Special Program)~

~Networking Event for Global Mentoring System~

Free Discussion with American Woman Scientist

Professor Nina Berova

Department of Chemistry, Columbia University, New York, USA

August 2, (Mon), 2010 4:50pm–5:20pm

12-102 (Bldg12, Rm 102)

Let's ask Professor Nina Berova about research activities and career !!

Professor Nina Berova is famous for the absolute configurational studies and chiral chemistry, and is also an editor of "*Chirality*". In 2007, she received Chirality Medal. This time, on the way to Nagoya University as a visiting professor, she kindly drops in at Tokyo and attends the colloquium at Sophia University. Free discussion is going to be held after Colloquium by Department of Materials & Life Sciences. On this precious occasion, please come and ask her directly about research activities, university in the U.S.A, and career as a distinguished woman research scientist.
